Aspring sofware developer

Skills

- Programming Languages: JavaScript, TypeScript, MySQL, NodeJS, Python, CSS, Java, HTML
- Libraries and Frameworks : React, Nextjs, Tailwindcss, Express.js, MongoDB, Prisma

Projects

Portfolio

https://www.darkrager.in

- https://github.com/DarkR4ger/my-portfolio
- Developed a dynamic and responsive portfolio using **Next.js** for optimal performance.
- Incorporated GSAP and Framer Motion for smooth animations and enhanced user interaction.
- Utilized Tailwind CSS for efficient and responsive styling, ensuring a modern and polished design.
- Implemented Locomotive Scroll to create a seamless scrolling experience, improving overall user navigation.
- Showcased proficiency in React and modern web development technologies, emphasizing a commitment to staying current with industry trends.
- Created an engaging and visually appealing portfolio that effectively highlights skills, projects, and accomplishments.
- Tech Stack Used: React, NextJs, FramerMotion, Gsap, TailwindCss,

Online Booking Website

https://bmsclone-sfsd.vercel.app/

- Github Link : https://github.com/DarkR4ger/bmsclone
- Developed an online booking website using Next.js 14 with the App Router feature.
- Implemented the application with TypeScript for type safety and scalability.
- Utilized MongoDB and Prisma ORM for robust and efficient database management.
- Integrated Stripe for secure and seamless payment processing.
- Created custom authentication using JWT for secure user access and session management.
- Leveraged ShadCN UI library to design a responsive and user-friendly interface.
- · Enabled users to:
- · Add and delete theatres and shows.
- Book shows and process payments via Stripe.
- · Developed admin functionalities to:
- Approve or block theatres.
- Add and manage movies.
- Ensured a user-friendly interface and smooth user experience across all functionalities.
- Tech Stack Used: Next.js 14, TypeScript, MongoDB, Prisma, Stripe, JWT, Shadon UI,

Education

Scaler 2024

Specialized in Software Development & Problem Solving

Coursework: Data Structure & Algorithms, Low level design, High level design

Sri Sai Ram Institute of Technology

BE/B.Tech/BS 8.02 CGPA

2021
